End-to-End Solutions

With a name that reflects our philosophy "A to Z" we pride ourselves on being a single, integrated partner for a wide range of specialized services that span engineering, construction, vessel support, technical inspections, environmental solutions, and beyond.

- ◆ Driving operational excellence through responsiveness to client needs and expectations.
- ◆ High-quality operations underpinned by industry-leading safety protocols
- ◆ Partner of choice for leaders in the energy, defence, and maritime domains

A to Z Marine and Offshore Services

 24/7 Availability

 One Call Away

Reliability at sea is paramount. We are dedicated to providing round-the-clock support across the full spectrum of marine and offshore operations. From vessel management and technical assistance to offshore maintenance and emergency response, our team upholds the highest standards of safety, efficiency, and professionalism.

Driven by commitment, strengthened by expertise, and anchored in trust, we are your dependable partner from port to offshore deployment.

ABOUT US

Delivering Complete Marine & Offshore Solutions

From Concept to Completion

A to Z Marine & Offshore Services, a proud Qatari-owned subsidiary of Sendian Group, is a leading provider of intelligent, end-to-end solutions across the marine, offshore, energy, and oil & gas sectors. Leveraging a modern fleet of owned vessels alongside chartering capabilities, we specialize in comprehensive project management, dynamic positioning system maintenance, ship management, and full EPIC (Engineering, Procurement, Installation, Construction) execution as trusted EPIC contractors.

Our diverse portfolio includes expert marine litigation technical support, hydrographic and geotechnical surveys, renewable energy project deployment and maintenance, port and harbor development, dredging, anchor handling, wellhead support, and vessel towage. We also support critical oil & gas operations, including major shutdown projects, ensuring minimal downtime and maximum operational efficiency.

We proudly serve key national and international entities including Qatar Energy, North Oil Company, Qatar Energy LNG, Dolphin Energy, Total, and government defense sectors such as the Ministry of Interior, Armed Forces, Naval Command, and Coastguard. Combining deep local insight with global best practices, we consistently deliver reliable, innovative, and high-impact marine and offshore solutions across Qatar, the GCC, and beyond.

Why Choose A to Z Marine & Offshore Solutions

OUR MISSION & VISION

Mission

Our mission is to deliver **innovative, reliable, and comprehensive marine and offshore** solutions that exceed client expectations while prioritizing safety, quality, and sustainability. We are committed to empowering industries with cutting-edge technology, expert personnel, and seamless project execution, all driven by integrity and a passion for operational excellence.

Vision

Our vision is to be the **global leader in marine and offshore services**, recognized for our unwavering commitment to safety, innovation, and sustainable growth. We strive to build lasting partnerships by delivering superior value, advancing industry standards, and shaping the future of marine and offshore operations worldwide.

Message

At Sendian Group, we are driven by a vision of growth and sustainability. Our journey began over 50 years ago, and today, we are a multi-sector leader with operations that span various industries.

YOUSUF EBRAHIM AL-MAHMOUD

Vice Chairman & CEO
Sendian Group

Over the years, I have witnessed our transformation from a focused marine service provider into a dynamic, full-spectrum solutions partner across the marine, offshore, energy, and defense sectors.

MOHAMMED MUFARRIJ SAMSUDEEN

CEO
A to Z Marine & Offshore Services

Meet Our CEO:

Mr. Mohammed Mufarrij Samsudeen, with over 10 years of dynamic experience in the marine and offshore industry, leads A to Z Marine & Offshore Services with visionary insight and a deep commitment to excellence.

Essential Features of our Core Services.

Project Management

- ◆ Comprehensive Turnkey Solutions for Onshore and Offshore Projects
- ◆ EPIC Contracting & Service (Onshore & Offshore)
- ◆ Marine Project Management (Onshore & Offshore)
- ◆ Modular Assembly & Pre-Fabrication (Onshore & Offshore)
- ◆ Dry Docking Planning & Support Services
- ◆ Structural Repairs, Retrofits & Life Extension Solutions
- ◆ Harbour Expansion & Port Services

Marine and Vessel

- ◆ Marine Fleets & Vessel Chartering Solutions
- ◆ Diving & ROV Operations
- ◆ Dynamic Positioning (DP) Vessel Operations & Maintenance
- ◆ Anchor Handling, Mooring & Rig Positioning
- ◆ Vessel Management – Technical & Crewing Services
- ◆ Dredging & Marine Construction Support

Fabrication

- ◆ Steel Structure & Pipeline Fabrication
- ◆ Post Weld Heat Treatment (PWHT)
- ◆ Surface Preparation, Coating & Corrosion Protection
- ◆ Blasting, Painting & Protective Coatings

Inspection

- ◆ Non-Destructive Testing (NDT) & Advanced Inspection
- ◆ Third Party Inspection (TPI), QA/QC & Material Testing Services
- ◆ Calibration Laboratory Services
- ◆ Lifting Gear Inspections & Certification
- ◆ Thickness Gauging & Corrosion Monitoring
- ◆ Safety & Quality Compliance Audits & Certification Support

Specialized Support

- ◆ Predictive Maintenance & Condition Monitoring Surveys
- ◆ Wellhead Support & Maintenance
- ◆ Rope Access, Inspection & Specialist Maintenance
- ◆ Marine Litigation Support & Technical Expert Witness
- ◆ Technical Supplies, Spare Parts & Logistics Solutions

Offshore Survey

- ◆ Hydrographic, Geotechnical & Environmental Surveys
- ◆ Offshore Renewable Energy Deployment & Maintenance
- ◆ Environmental Impact Assessments
- ◆ Hazmat & Asbestos Management
- ◆ Hazardous & Non-Hazardous Waste Disposal

Engineering

- ◆ Naval Architecture & Detailed Engineering Design
- ◆ Structural & Mechanical Engineering
- ◆ 3D Modeling, Simulation & Digital Twin Solutions

CERTIFICATION & ACHIEVEMENT

ISO Certified Company – 45001:2018

ISO Certified Company – 9001:2015

ISO Certified Company – 14001:2015

ISO Certified Company – 17020:2012

ICV Certified – Tawteen

IMCA – International Marine Contractors Association

Business Sectors

Marine Onshore Services

Marine Onshore Services encompasses a broad range of activities supporting port, harbor, and coastal infrastructure.

Services Include in Marine Onshore

- ◆ Project Management Services
- ◆ Operational Analysis
- ◆ Port & Harbor Developments
- ◆ Renewable Energy Project Support (Onshore Phase)
- ◆ Environmental Impact Assessments
- ◆ Construction Supervision & Inspection
- ◆ Utilities & Infrastructure Support
- ◆ Safety & Quality Compliance Audits
- ◆ Manpower Management
- ◆ Rope Access & Inspection Services
- ◆ Fender Management and Repairs
- ◆ Third Party Inspection (TPI) & QA/QC
- ◆ Calibration Laboratory Services
- ◆ Welding and Fabrication Services
- ◆ Material Testing Laboratory Services
- ◆ Post Weld Heat Treatment (PWHT)
- ◆ Asbestos Management
- ◆ Hazardous Material (Hazmat) Management
- ◆ Hazardous and Non-Hazardous Waste Disposal
- ◆ Technical Supplies and Services
- ◆ Lifting Gear Inspections
- ◆ Thickness Gauging
- ◆ Predictive Maintenance Surveys
- ◆ Detailed Marine Drawing & Design Support
- ◆ Dry Docking Support Services

Marine Offshore Services

Marine Offshore Services address the complex demands of offshore operations and infrastructure. Project Management Services coordinate offshore construction, installation, and maintenance projects, ensuring efficiency and safety.

Services Include in Marine Offshore

- ◆ Project Management Services (Offshore)
- ◆ EPIC Contractors & Service Providers (Offshore)
- ◆ Anchor Handling
- ◆ Wellhead Support
- ◆ Offshore Windfarm Support
- ◆ Dredging Support (Offshore/Port Channels)
- ◆ Renewable Energy Project Support (Deployment & Offshore Maintenance)
- ◆ Turnkey Offshore Solutions
- ◆ Operational Analysis (DP Operations, Station Keeping, Mooring Systems)
- ◆ Offshore Safety & Environmental Compliance Monitoring
- ◆ Offshore Pipeline Installation & Maintenance Support
- ◆ Subsea Installation & Inspection Services
- ◆ Manpower Management (Offshore Crews & Specialists)
- ◆ Rope Access & Inspection Services (Offshore Structures & Vessels)
- ◆ Diving Services (Inspection, Maintenance, Repairs, Survey)
- ◆ Fender Management and Repairs (Offshore Platforms and Structures)
- ◆ Advanced Non-Destructive Testing (NDT)
- ◆ Non-Destructive Testing (NDT)
- ◆ Lifting Gear Inspections
- ◆ Predictive Maintenance Surveys
- ◆ Thickness Gauging
- ◆ Asbestos Management
- ◆ Hazardous Material (Hazmat) Management
- ◆ Hazardous and Non-Hazardous Waste Disposal
- ◆ Technical Supplies and Services
- ◆ Marine Litigation Technical Support
- ◆ Dry Docking Support Services

Detailed Engineering & Naval Architecture

Detailed Engineering & Naval Architecture services provide expert design and analysis critical for marine and offshore projects. This includes structural, mechanical, electrical, and instrumentation engineering to develop robust and efficient systems. Load and stress analysis ensure components withstand operational demands.

Using 3D modeling and simulation, we optimize designs before construction, minimizing risks and costs. Engineering support extends through procurement and construction phases, maintaining technical integrity and compliance.

Design Review and Validation processes verify all engineering deliverables meet specifications and regulations. As-Built Documentation and Revisions provide accurate records of completed projects, supporting future maintenance and modifications.

Services Include in Detailed Engineering & Naval Architecture

- ◆ Detailed Engineering, Drawing, Design & Analysis
- ◆ Structural & Mechanical Engineering
- ◆ Electrical & Instrumentation Engineering
- ◆ Load & Stress Analysis
- ◆ 3D Modeling & Simulation
- ◆ Engineering Support for Procurement & Construction
- ◆ Design Review & Validation
- ◆ As-Built Documentation & Revision
- ◆ Naval Architecture & Design Services
- ◆ Marine Operational Analysis Support
- ◆ Marine Systems Integration & Optimization

Fabrication Services

Fabrication Services encompass the manufacturing, assembly, and finishing of marine and offshore structures. Steel Structure Fabrication forms the backbone of platforms, vessels, and port infrastructure. Pipe Fabrication and Welding produce critical piping systems for fluid transport. Modular Assembly and Pre-Fabrication enhance project efficiency by building large components offsite. Quality Assurance & Testing, including Non-Destructive Testing and Weld Inspections, confirm structural integrity and workmanship.

Fabrication Services (Onshore & Offshore)

Fabrication services cover the manufacturing of steel and other materials into structural components, piping, and modules for marine and offshore projects. This process involves cutting, shaping, welding, and assembling parts to precise specifications, adhering to quality standards mandated by classification societies like IACS.

This process involves cutting, shaping, welding, and assembling parts to precise specifications, adhering to quality standards mandated by classification societies like IACS.

- ◆ Steel Structure Fabrication
- ◆ Pipe Fabrication & Welding
- ◆ Modular Assembly & Pre-Fabrication
- ◆ Quality Assurance & Testing (NDT, Weld Inspection)
- ◆ Surface Treatment & Coating
- ◆ Heavy Lift & Load Out Support
- ◆ Fabrication Project Management
- ◆ Welding and Fabrication Services
- ◆ Post Weld Heat Treatment (PWHT)
- ◆ Structural Repairs & Retrofits

Governmental & Defense Sector Services

Governmental & Defense Sector Services provide tailored support to military and security maritime operations. EPIC Support services deliver full project execution for defense fleets, including engineering, procurement, installation, and commissioning of specialized systems. Naval Vessel Maintenance & Retrofit Services extend the operational life and capability of military vessels. Fleet Management and Secure Project Oversight ensure confidentiality, compliance, and operational readiness.

- ◆ EPIC Support for MOI, Defense, Naval & Coastguard Flotilla
- ◆ Naval Vessel Maintenance & Retrofit Services
- ◆ Surveillance & Military System Integration
- ◆ Fleet Management & Secure Project Oversight for Government Entities
- ◆ Dry Docking & Repair for Government-Owned Vessels
- ◆ Confidential Technical Documentation & Mission Planning Support
- ◆ Clearance-Vetted Technical Manpower Supply
- ◆ Rope Access & NDT for Restricted Military Zones/Vessels
- ◆ Strategic Hydrographic Survey & Navigation Channel Mapping
- ◆ Specialized Vessel Chartering for Security & Patrol Missions
- ◆ Litigation Support for Government Marine Incident Investigation
- ◆ Security & Access Control Management
- ◆ Training & Simulation for Defense Operations
- ◆ Third Party Inspection (TPI) & QA/QC
- ◆ Advanced Non-Destructive Testing (NDT)
- ◆ Hazardous Material (Hazmat) Management
- ◆ Hazardous and Non-Hazardous Waste Disposal
- ◆ Asbestos Management
- ◆ Technical Supplies and Services

Petrochemical Sector Services

Petrochemical Sector Services support the oil, gas, and chemical industries with specialized expertise. Oil & Gas Operations including Shutdown Projects ensure safe and efficient plant maintenance and upgrades with minimal downtime. EPIC Contracting delivers end-to-end project services onshore, covering engineering, procurement, installation, and commissioning. Pipeline Inspection & Maintenance Support protect critical infrastructure from leaks and failures.

Services Include in Petrochemical Sector

- ◆ Oil & Gas Operation Including Shutdown Projects
- ◆ EPIC Contractors & Service Providers (Onshore)
- ◆ Pipeline Inspection & Maintenance Support
- ◆ Facility Turnaround Services
- ◆ Hazardous Area Compliance & Safety Services
- ◆ Manpower Supply for Petrochemical Projects
- ◆ Emergency Response & Contingency Planning
- ◆ Third Party Inspection (TPI) & QA/QC
- ◆ Advanced Non-Destructive Testing (NDT)
- ◆ Asbestos Management
- ◆ Hazardous Material (Hazmat) Management
- ◆ Hazardous and Non-Hazardous Waste Disposal
- ◆ Technical Supplies and Services
- ◆ Pressure Testing & Leak Detection

Marine Fleets

Marine Fleets Services manage and operate vessels supporting marine projects and offshore operations. Project Vessel Ownership and Chartering Services provide access to a wide range of specialized vessels tailored to project needs. Dynamic Positioning (DP) Maintenance & Management ensure vessels maintain precise positioning critical for offshore work. Vessel Towage Services assist in maneuvering vessels and structures safely in confined or challenging waters. Crew Management & Training maintain a competent and compliant workforce for operational excellence.

Services Include in Marine Fleets

- ◆ Project Vessel Owners & Chartering Services
- ◆ Dynamic Positioning (DP) Maintenance & Management of Vessels
- ◆ Vessel Towage Services
- ◆ Vessel Crew Management & Training
- ◆ Maintenance & Repair Coordination
- ◆ Fleet Compliance & Regulatory Management
- ◆ Spare Parts & Equipment Supply Management
- ◆ Emergency Response & Salvage Support
- ◆ Technical Supplies and Services
- ◆ Anchor Handling
